

Greetings,

It has been brought to my attention that XM Satellite radio may be a service you plan to do away with. I highly encourage you not to do so. I subscribe to the monthly service to have access to hundreds of wonderful stations, weather, traffic, and all types of music selections. I pay for this service because I don't have access to a variety of stations, and most of the stations are commercial free. Please reconsider your efforts.

Sincerely,

Angela Estes
